ABOUT STAD ACADEMY

Stad Academy serves students with a variety of complex programming skills. We, at Stad Academy, things are different. Each student's program are uniquely tailored to their specific needs. Students participate in specialized classroom learning are individualized support accelerates their learning and, as a result, they experience significant programming skills.

We help each student practice learning skills to achieve their full potential. We individually tailor our training to give every student the chance to experience daily success, build skills and self-confidence.

At Stad Academy, Students develop self-understanding and self-confidence, build academic and programming skills and learn to capitalize on their strengths and talents, well-prepared for their job.

With our headquarters in Mumbai, one of the IT hubs of India. We are an ISO 9001:2015 certified organization that operates through well-defined systems and procedures.

A formidable team of over 30 qualified professionals, and strong associations with Global Technology Leaders.

COURSE OBJECTIVE

Enable participants to develop a complete web application from the scratch that includes Front-end, Backend and Data-exchange technologies. Build strong foundations in entry level engineers thereby making them job ready as per industry requirements. Enable them to learn new technologies by applying foundation paradigms. By the end of the program participants will become an industry-ready engineer who can be readily deployed in a project.

PHP is one of the trending technology to be learned.

- One can Code, test and debug a PHP application.
- Build dynamic server-side PHP applications
- Learn to install PHP and basic output and variables.
- Candidates can develop a complete CMS using PHP.
- PHP also helps to develop image uploading website using PHP.

What is Full Stack Development?

It is the development of both the Front-end(client-side) & Back-end(server-side) of web applications.

Front-end

Back-end

A Full-Stack Developer can produce end-to-end solutions, which is a highly marketable and agile skill set that is in-demand worldwide. Remote job type & competency with this designation assures eternal job security.

Key Features

4 month Live Project Working

Industry-recognized Certification

Technologies **Covered**

- ✓ Html
- ✓ Css
- ✓ Bootstrap
- ✓ Javascript
- ✓ JQuery
- ✓ Django
- ✓ Angular Js
- ✓ React Js
- ✓ Vue Js
- ✓ Php
- ✓ Python
- ✓ Node Js
- ✓ Mysql
- ✓ Mongo Db
- ✓ Posgress Sql
- ✓ Api Building
- ✓ Postman
- ✓ Git
- ✓ Apache
- ✓ Filezilla
- ✓ Notepad++
- ✓ Sublime
- ✓ Vs Code
- ✓ Sql Yog
- ✓ Work Bench
- ✓ Shell Script

Our Course

Full Stack PHP Developer

HTML, CSS, Bootstrap, JavaScript, JQuery, apache, PHP, MySQL, Codeigniter, API Building, Postman, Git, GitHub, FileZilla, Notepad++, Sublime.

Full Stack PYTHON Developer

Learn to build websites with HTML , CSS , Bootstrap, Javascript, jQuery , django, Python 3, flask, fast API.

Full MEAN Developer

MongoDB, Express.js, AngularJS, and NodeJS. HTML5, CSS3, and JavaScript.

Web Developer

HTML ,CSS, Bootstrap, JavaScript, JQuery, apache, Git, GitHub, FileZilla, Notepad++, Sublime.

COURSES KEY FEATURES

- Training (2 months)
- Working on live projects (4 months)
- Trained by industrial Professional expert
- 100% placement guarantee

Paid Internship

In Business, Engineering and Technology.

Stad Academy, apprentices, and residents help build products that create opportunities for everyone. Bring your insight, imagination, and a healthy disregard for the impossible. Together, we can build for everyone. The internships below are not exhaustive, and may or may not be currently available, but provide a taste of the various internships STAD offers.

Software Engineering, UX, Product Management, and more

Software Engineering Internship

Software Engineering internships are available throughout the globe to undergraduate and graduate/PhD students, with rolling application dates (depending on location). Our interns have a broad set of technical skills, enabling them to tackle some of technology's greatest challenges.

Software Development Internship

Open to people interested in becoming a software developer by gaining practical skills while studying 20% of their time towards an externally-recognized apprenticeship qualification and a Foundation Degree in Digital Innovation. The program lasts two years and applications open in the fall.

Web Development Internship

The IT internship is designed for students who have a passion for technology and providing technical user support. The program includes front-line internal user support, a corporate engineering project, and skills-based training.

Collage Projects

Best Computer Science and Engineering Project Topics Ideas For Students

List Of Project Ideas and Topics :

- IEEE Project- SeDaSc.
- DES Encryption Implementation.
- AES Encryption Algorithm Implementation.
- College Library.
- Online Allotment System.
- Online Survey System.
- Securable Network in three-party Protocols
- Security System For DNS Using Cryptography
- Threshold-Multi signature in Distributed System
- Web-Enabled Interactive Work Order System
- Web Mining
- Hospital Management System
- Training & Placement Cell Management
- Ant Colony Optimization Technique For Mantes
- Railway Route Optimization System
- Chat Server and Client Application
- Implementation Of a Mini Search Engine
- Online Bus Reservation
- GPS Rover
- Vehicle Management System
- Telephone Billing System
- Student Attendance Management System
- Record Tracker
- Cargo Logistics
- Cell Breathing Technique
- BoobTubeFlourish
- Cyber JobMela
- Bishop Cotton School
- Health Maintenance System
- Planning of Wireless Sensor Networks
- Jobbing Portcullis
- Exam Experts
- Career Path
- Enterprise Security Services
- Back to My Village
- Cool Cab Services
- BPO Solutions
- Generic SQL Explorer
- Face Detection Using Epitomic Analysis
- Computer Troubleshooting Intelligent System
- Customer Complaint Report Software
- ER Diagram Maker
- Dynamic Flash Interface
- Design And Analysis Of Sense Amplifier
- And Many More....
