FULL STACK DEVELOPER

ABOUT STAD ACADEMY

Welcome to the world of Stad Academy where we believe that Information, Knowledge and Insights can help you to see and achieve Beyond the obvious.

Incorporated in 2021, Stad Academy is a child company of Digital Solution Media(DSM) and that is one of the leading solution providers in Information Technology Training, Staffing and Products & Tools Consulting services to both Retail (i.e. students, professionals and individuals) and Corporate customers.

With our headquarters in Mumbai, one of the IT hubs of India. We are an ISO 9001:2015 certified organization that operates through well-defined systems and procedures.

A formidable team of over 30 qualified professionals, and strong associations with Global Technology Leaders.

COURSE OBJECTIVE

Enable participants to develop a complete web application from the scratch that includes Front-end, Backend and Data-exchange technologies. Build strong foundations in entry level engineers thereby making them job ready as per industry requirements. Enable them to learn new technologies by applying foundation paradigms.By the end of the program participants will become an industry-ready engineer who can be readily deployed in a project.

PHP is one of the trending technology to be learned.

• One can Code, test and debug a PHP application.
• Build dynamic server-side PHP applications
• Learn to install PHP and basic output and variables.
• Candidates can develop a complete CMS using PHP.
• PHP also helps to develop image uploading website using
PHP.

What is Full Stack Development?

It is the development of both the Front-end(client-side) & Back-end(server-side) of web applications.

Front-end   **+**   **Back-end**

A Full-Stack Developer can produce end-to-end solutions, which is a highly marketable and agile skill set that is in-demand worldwide. Remote job type & competency with this designation assures eternal job security.
